GRIDE

WHAT IS A GORIDE?

GoRide Australia have created a Linear Cable system that is fantastic for all levels of rider age and ability. It is very user friendly, easy to operate, low maintenance, exceptional value for money and terrific fun.

This exciting introduction will make Cable Watersports accessible anytime at a very affordable price. It is also the perfect training tool for up and coming riders with the opportunity to create your own private cable park. The design enables participants to fast track their board skills and learn technical air tricks improving their performance personally and on the competition circuit.

INNOVATING THE WAY WE RIDE

The optional upgrade of touch screen systems allows for greater operator control by any user. The base touch screen features options such as rider profiles right through to advanced models that offer auto rope adjustment and stop, stall, start for greater rider performance.

WHY SHOULD I BUY A GORIDE?

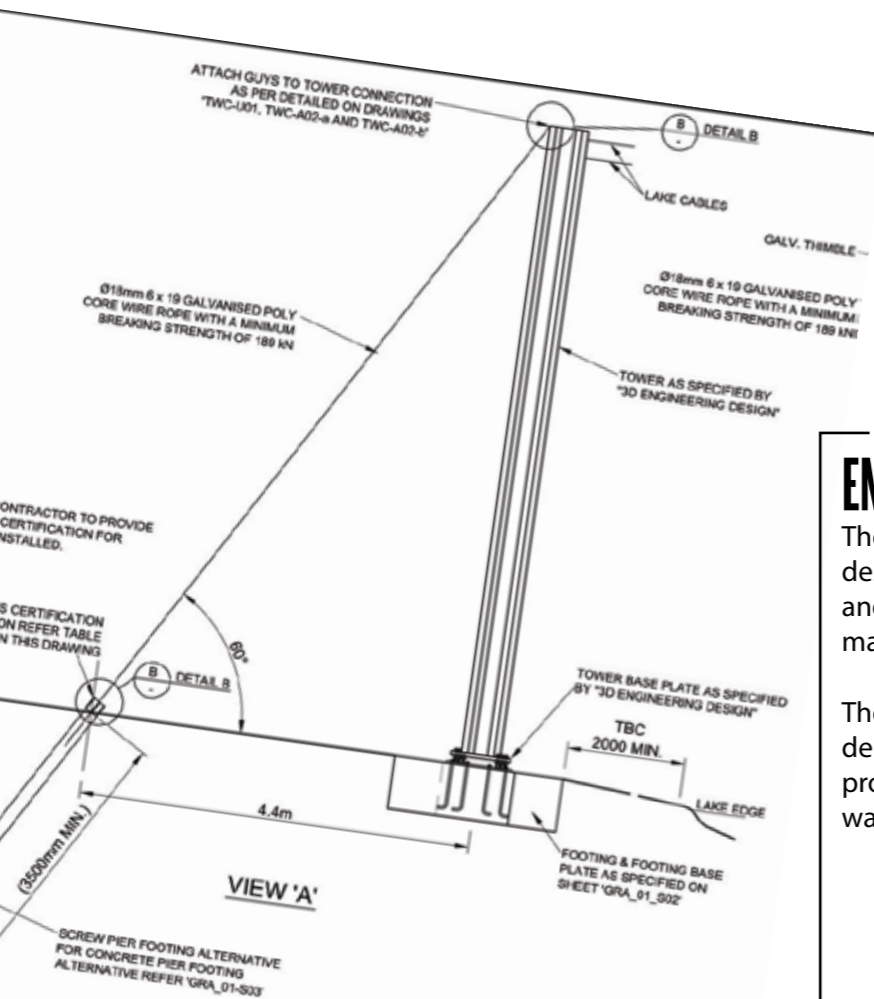

- Extremely Low running costs involved
- Instantly accessible
- Family oriented Sport & Recreation
- Two Person operation
- Alternative backyard entertainment
- Short set up and pack up for daily use

WAKEBOARD

SOME OF THE BUILT IN FEATURES

- Computer controlled predetermined turning points
- Manual speed control
- DCCS – Dynamic Counterweight Cable Stabilisation
- Low Maintenance and operational servicing
- User friendly operation
- Clean lines

ENGINEERING

The GoRide Linear Cable Systems have been designed and manufactured to Australian Standards and for correct operation and maintenance of this machine must be adhered to. AS3533.2-2009

The Cable System has also been developed to deliver minimal impact to environment, therefore providing a eco friendly sustainable solution to your watersports needs.

COMMERCIAL OR PRIVATE USE

The GoRide has been manufactured and certified so it can be used for both Commercial or Private use. We have the documentation and respective amusement park device classifications that will allow you to start trading as a stand alone cable watersports complex.
